[url=http%3A%2F%2Fopensource.com%2Flife%2F14%2F8%2Fcommunity-report-july-2014&title=Opensource.com July 2014 report: Top 10 articles, site stats, and more\)](http://reddit.com/submit?url=http%3A%2F%2Fopensource.com%2Flife%2F14%2F8%2Fcommunity-report-july-2014&title=Opensource.com July 2014 report: Top 10 articles, site stats, and more)

[StumbleUpon](#)

We had an amazing July on Opensource.com bringing in 383,960 page views and 217,933 unique visits. We published a record 82 articles including [18 interviews with OSCON speakers \(http://opensource.com/business/14/7/speaker-interview-series-oscon-2014\)](#) for this month's themed content.

## Highlights

The article, *Who's using Docker?*

(<http://opensource.com/business/14/7/docker-through-hype>) by Ben Lloyd Pearson, was featured on ZDNet in this post by Stephen J Vaughn-Nichols: *What is Docker and why is it so darn popular?* (<http://www.zdnet.com/what-is-docker-and-why-is-it-so-darn-popular-7000032269/>)

Richard Stallman [commented](#)

(<http://opensource.com/comment/39980#comment-39980>) on this article by Aaron Williamson: *Lawsuit threatens to break new ground on the GPL and software licensing issues* (<http://opensource.com/law/14/7/lawsuit-threatens-break-new-ground-gpl-and-software-licensing-issues>)

(Learn more about Stallman and other open source leaders of the movement in this [documentary](https://www.youtube.com/watch?v=jw8K460vx1c) (<https://www.youtube.com/watch?v=jw8K460vx1c>).)

## Rankings

Our OSCON speaker interview series ran from July 7 through July 18. We published 18 interviews, ten of which got more than 1,000 page views. Particularly, Jodi Biddle's [interview with Docker's James Turnbull](#) (<http://opensource.com/business/14/7/why-docker-new-craze-virtualization-and-cloud-computing>) went big on Hacker News, bringing in almost 20,000 page views. The interviews brought in almost 40,000 page views in aggregate.

July continued on a steady pace of interest for our OpenStack content. We published 13 new articles generating 14,313 page views. Our *What is OpenStack?* (<http://opensource.com/resources/what-is-openstack>) page continues to perform well in search and had its best month bringing in 6,742 page views. The page is also featured in the Google definition box—which we're very excited about.

Our *What is open source?* (<http://opensource.com/resources/what-open-source>) page maintained the #1 position in search results and generated 13,608 page views.

For the seventh month in a row, the top article was *Top 5 open source project management tools in 2014* (<http://opensource.com/business/14/1/top-project-management-tools-2014>) by Robin Muilwijk, an Opensource.com Community Moderator. This article continues to get steady search traffic and was the most visited page on the site with more than 40,000 page views.

## Editor's picks

With more than 80 articles published in July, it was a difficult to choose the best of

all the open source goodness. But, I did. Here are a few to add to your reading list (if you haven't already):

- Community moderator Scott Nesbitt takes a look at the [five open source CRM \(customer relationship management\) tools](http://opensource.com/business/14/7/top-5-open-source-crm-tools) and [six open source tools for data journalism](http://opensource.com/life/14/7/6-open-source-tools-data-journalism) (<http://opensource.com/life/14/7/6-open-source-tools-data-journalism>).
- As part of our young professionals in open source theme, see why you should learn as much as you can (<http://opensource.com/business/14/7/looking-for-technology-job>) about open source and [how collaboration looks different](http://opensource.com/education/14/7/red-hat-intern-story-collaboration) (<http://opensource.com/education/14/7/red-hat-intern-story-collaboration>) in the work place compared to in school.
- An [interview with Karen Sandler](http://opensource.com/life/14/7/interview-karen-sandler-software-freedom-conservancy) (<http://opensource.com/life/14/7/interview-karen-sandler-software-freedom-conservancy>), the Executive Director of the non-profit Software Freedom Conservancy, reveals an identity crisis in open source.
- [Teaching Internet safety in the classroom](http://opensource.com/education/14/7/internet-safety-classroom-education) (<http://opensource.com/education/14/7/internet-safety-classroom-education>) is an important topic, which is why the IT Director for Penn Manor School District, Charlie Reisinger, has something to say about it.
- Docker. Need I say more? Jérôme Petazzoni, a senior software engineer at Docker, tells us about the amazing [growth of Linux containers](http://opensource.com/business/14/7/interview-j%C3%A9r%C3%B4me-petazzoni-docker%20) (<http://opensource.com/business/14/7/interview-j%C3%A9r%C3%B4me-petazzoni-docker%20>).
